## PROFILE

As I changed my career path from welding, currently I am a recent graduate with a passion for IT field and front-end development. I am eager to apply my skills and knowledge to be a helping hand in the team to maintain and resolve occurring issues, in addition, I can create visually appealing and user-friendly websites. With a good foundation in HTML, CSS, Scss, JavaScript, React, and Microsoft Office, I am committed to contributing to safe operations, innovative projects and delivering exceptional user experiences. My goal is to continuously grow as an IT specialist and front-end developer while collaborating with a dynamic team to bring digital visions to life.

## WORK EXPERIENCE

### Welder

Seaboats LT                                                                            2021-2023

- Reading blueprints and plans
- Material preparation
